MEET THE OWNER

San Smith is the lead designer at The Flower Studio Altamonte, renowned for creating beautiful floral arrangements for weddings and events in Central Florida. Her floral career began as a freelancer, leading her to work part-time at The Flower Studio during COVID and eventually acquire the business in 2023.

With a commitment to excellence, San attends Floriology Institute to stay current with trends and has over seven years of experience. She holds the Florida State Master Designer title from the FSFA. She is also part of Central Florida Wedding Association and Wedding Venue Map.

OUR PROCESS

The process begins when the couple reaches out to inquire about our floral services, We gather all the floral details before scheduling a consultation, either in person or virtually. During the consultation we talk about the color scheme & floral preferences. We also ask about specific needs, such as bouquets, centerpieces, ceremony florals, or floral installations.

After gathering all necessary information, we prepare a customized floral proposal. This includes flower options, design suggestions, and a detailed quote. We share this proposal with the couple, ensuring it aligns with their vision. We're available to answer any questions and make adjustments if needed. If they would like to secure their day, they can save the date with us. Also, the day before we send a picture of the bridal bouquet to the bride, so she can take a look at it and give us the approval.

On the wedding day, we deliver the flowers and arrange them at the venue. We ensure everything is set up according to the bride's vision.
